Rinse Ace® Pet Shower Deluxe Testimonials

“Before using the Pet Shower Deluxe, bathing my dog was hard. I had to fill a cup with water to wet and rinse him. It took a long time and the dog was very unhappy. In addition to being time consuming and stressful for the dog, it was hard on my back. The Pet Shower Deluxe makes rinsing and bathing faster and easier and it also makes cleaning the shower easier.”

-Sandy D.

“Thank you. You have a fantastic product. It has taken me longer to write this message than it did to install my new Pet Shower Deluxe. It took me about two minutes. I was skeptical since I never heard of your product but I bought it anyway and thought I’d give it a try. I’m glad I did. You surpassed my expectations. Easy to install. Easy to use and it doesn’t drip.”

-Manuel C.

“The groomer gets expensive and at home I could never rinse all the shampoo away with just splashing cupfuls of water over the top of the dogs. With the Pet Shower Deluxe I can rinse all of the soap away, even underneath.”

-Michelle L.

“It works great. I use it now for cleaning the bathroom as well as the dogs. It is also easy for me to install and remove between uses.”

-Customer from Lake Omon, Michigan

“With the Pet Shower Deluxe, water is available at the touch of a button and it turns off the other water flow when not in use. This keeps our dog focused on the bath instead of the running water (our yellow lab loves water).”

-Customer from New Castle, Delaware
